

Eden Biodesign Vaccine Expert to Speak at BioProcess International Conference & Exhibition

Liverpool, UK and RTP, N.C., USA (September 15, 2010) – Eden Biodesign, a globally-integrated provider of biopharmaceutical process development, cGMP manufacturing and consultancy services, today announced that Dr. Andrew Clutterbuck, Purification Development Team Leader for Eden Biodesign Ltd., will speak at the BioProcess International™ Conference & Exhibition. The Conference will be held at the Providence Rhode Island Convention Center September 20-24.

On September 22 at 5:00 p.m., as part for the “Process Development and Analytical Characterization for Vaccine Production” section of the Conference, Dr. Andrew Clutterbuck will offer a presentation called: “From Bench to Bag: Deployment and Implementation of Novel Solutions for Vaccine Production.” Specifically, this presentation is a case study in the development and implementation of a manufacturing process, and it will provide specific solutions to the manufacture of adenoviral vectors. Dr. Clutterback will also offer a general approach for other vaccine platforms. More information about this presentation can be found at www.ibclifesciences.com/bpi/vaccine.xml.

At the BioProcess International Exhibition, Eden Biodesign will be exhibiting in booth #912. If you would like to meet with Eden representatives at the show, visit www.propelmg.com/edenbiodesign/emarketing/bpi2010/book-a-meeting.html.
